Education

University of Moratuwa

BSc Engineering Honours in Computer Science & Engineering

2023 – Present

GPA: 3.43/4.00

Experience & Initiatives

Sciber | Creator & Technical Educator

2020 – Present

youtube.com/@wearesciber

- Created **99** beginner-focused C++ and GUI-development tutorials in Sinhala and English, handling research, coding demonstrations, recording, editing, thumbnails, and community support; grew the channel to **16K+ subscribers** and approximately **2.3M views**.

Freelance Graphic Designer

2023 – 2024

Independent

Adobe Photoshop

- Produced promotional and social-media designs for approximately **10 paying clients**, including repeat education-sector clients; managed requirements, pricing, feedback, revisions, and delivery directly.

Selected Projects

ResourceHive | Multi-Tenant Resource Sharing Platform

[Live](#) ▪ [GitHub](#)

[Next.js](#) · [NestJS](#) · [TypeScript](#) · [PostgreSQL/Prisma](#) · [Caddy](#) · [Docker](#) · [GitHub Actions](#)

- Owned the platform layer in a three-person team: the Next.js frontend, Identity Service, Prisma schema/migrations, shared authentication, and cross-service integration; implemented verified signup, password reset, and rotating refresh sessions.
- Migrated the API gateway from Nginx to Caddy and maintained Docker/GitHub Actions delivery to Linode, including migrations, image publishing, service verification, releases, rollbacks, and CI/E2E coordination.

C++ Windows Forms Project Template

[Marketplace](#) ▪ [GitHub](#)

[C++/CLI](#) · [Visual Studio](#) · [Windows Forms](#) · [.NET Framework](#)

- Published a project template that restores an easy starting point for C++/CLR Windows Forms applications in modern Visual Studio; reached **36.7K+ installs** on the Visual Studio Marketplace.

MIMS | Banking Management System

[Live](#) ▪ [GitHub](#)

[Next.js](#) · [React](#) · [PostgreSQL](#) · [JWT](#) · [Vercel](#)

- Led technical development in a five-member university team, defining the ER model, application/API structure, and Git workflow; built JWT-protected customer, account, branch, and transaction workflows and deployed the application on Vercel.

SymbolPicker | Unicode Search Utility

[Softpedia](#) ▪ [GitHub](#)

[C#](#) · [.NET 6](#) · [Windows Forms](#) · [Win32 APIs](#)

- Built a compact utility that loads editable Unicode metadata, searches symbols by description, and inserts selections into other applications; reached **20 stars**, **253 GitHub release downloads**, and **114 Softpedia downloads**.

Personal Technical Publishing Platform

[Website](#) ▪ [GitHub](#)

[JavaScript](#) · [Node.js](#) · [Markdown-it](#) · [HTML/CSS](#) · [Vercel](#)

- Designed and built a custom static publishing engine for thisismalindu.com that extracts article metadata from Markdown, renders syntax-highlighted content into reusable HTML templates, and generates pinned-post indexes for deployment on Vercel.

timActionCenter | Custom Windows Action Center

[GitHub](#)

[C#](#) · [.NET 6](#) · [WPF](#) · [Windows Registry](#) · [ModernWpf](#)

- Built a WPF system-tray quick-settings utility that toggles Windows proxy state through the Registry and switches system light/dark themes while preserving wallpaper and Windows accent styling.

Meow Uptime | Uptime & Incident Monitor

[Live](#) ▪ [GitHub](#)

[Node.js](#) · [Express](#) · [Supabase](#) · [Docker](#) · [GitHub Actions](#)

- Built a monitor that checks HTTP endpoints every 60 seconds, records latency and status in Supabase, opens incidents after three failures, and clears them on recovery; added automated tests, a health endpoint, Docker support, and GitHub Actions CI.

Technical Skills

Languages: C++, C#, JavaScript, TypeScript, Python, SQL

Frameworks: Next.js, React, Node.js, Express, NestJS, .NET, WPF, Windows Forms

Tools & Testing: Git, Linux, Docker, Docker Compose, GitHub Actions, Jest, Vitest

Data & Systems: PostgreSQL, Prisma, Supabase, REST APIs, JWT, Caddy
